TO WHOM IT MAY CONCERN

I have worked with the team at Business Results, in particular Don and Cheryl for almost 5 years and consider them an integral part of our team.

The quality of work from their team at the office is very high, and they respond very quickly to requests for information or for explanations on any accounting matters.

We meet with Cheryl and Don on a regular basis when they come to Wellington and they "keep us on our toes". They are proactive with advice and test our assumptions about business on a regular basis. I particularly enjoy getting the regular newsletters from Don which serves to make me think about the way we work with our own clients.

I don't hesitate to recommend them as Accountants and Business Advisors to anyone who is seeking quality support and advice
