REFERENCE FOR BUSINESS RESULTS.

I have used business results for many years now, as I have grown in business, so has my relationship with them.

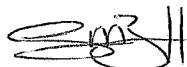

Some of the areas I find them excellent in are as follows:

- A monthly package deal which includes GST and annual reports, unlimited phone calls and advise.
- It is different people who specialise in different fields , it is always easy to access the person in their respective areas.
- Reports and accounts are completed in good time.

The company is in business themselves so they understand what it is really like.

As much as I like to support local business in my home town, to me there is an advantage of having my accounting work prepared out of town.

Yours sincerely,

Shona Burtt
